

## **TOXICOLOGY AND RISK ASSESSMENT OF PESTICIDES**

- 1 THE PESTICIDE DILEMMA – THE DEBATE OVER PESTICIDE RISKS AND BENEFITS
  - 1.1 TRENDS IN PESTICIDE USE
  - 1.2 PESTICIDE USE IN AGRICULTURE
    - 1.2.1 Estimated quantities of pesticide use
    - 1.2.2 Economic benefits of pesticide use
    - 1.2.3 World population, agricultural pesticides and the world food challenge
  - 1.3 PESTICIDES IN PUBLIC HEALTH
  - 1.4 PESTICIDE USE IN URBAN AREAS
  
- 2 PESTICIDE UPTAKE AND MOVEMENT IN TARGET ORGANISMS
  - 2.1 SELECTIVE PESTICIDE TOXICITY
  - 2.2 PLANTS AS TARGET ORGANISMS
  - 2.3 ANIMALS AS TARGET SYSTEMS
  - 2.4 FUNGI AS TARGET ORGANISMS
  
- 3 IMPORTANT CLASSES OF PESTICIDES
  - 3.1 PESTICIDES AFFECTING ENERGY
  - 3.2 NEUROTOXIC PESTICIDES
  - 3.3 MITOSIS INHIBITORS IN PLANTS
  - 3.4 HORMONE MIMICS AND GROWTH REGULATORS
  - 3.5 PESTICIDES AFFECTING MEMBRANES
  - 3.6 PESTICIDES AFFECTING METABOLIC REACTIONS
  
- 4 METABOLISM OF PESTICIDES
  - 4.1 ENZYME SYSTEMS INVOLVED IN PHASE 1 REACTIONS
  - 4.3 PHASE-2, CONJUGATION REACTIONS
  
- 5 PESTICIDE RESIDUES IN FOOD
  - 5.1 MAXIMUM RESIDUE LIMITS AND TOLERANCES
  - 5.2 CONCERNS ABOUT THE CONSUMPTION OF MULTIPLE RESIDUES
  - 5.3 THE 1996 FOOD QUALITY PROTECTION ACT OF THE USA
  
- 6 FATE AND MOVEMENT OF PESTICIDES IN THE ENVIRONMENT
  - 6.1 PESTICIDES IN SOIL
  - 6.2 PESTICIDES IN WATER
  - 6.3 ENTRY OF PESTICIDES INTO AIR
  - 6.4 BIOCONCENTRATION AND BIOMAGNIFICATION OF PESTICIDES

- 6.5 Characterizing Exposure
  - 6.5.1 Kinetics and Equilibrium Processes
  - 6.5.1 Environmental Measurements
  - 6.5.1 Treatment of Data Below the LOD and LOQ
  - 6.5.1 Estimating the Environmental Concentration
  - 6.5.1 Empirical worst-case models for pesticides
  - 6.5.1 Complex models
  
- 7 ECOLOGICAL RISK ASSESSMENT OF PESTICIDES
  - 7.1 GENERAL PRINCIPLES OF RISK ASSESSMENT
  - 7.2 HAZARD QUOTIENT APPROACH
  - 7.3 PROBABILISTIC APPROACH
    - 7.3.1 The joint probability curve
    - 7.3.2 Risk categories
  - 7.4 METHODS FOR CONDUCTING PROBABILISTIC RISK ASSESSMENT
    - 7.4.1 The exposure profile
    - 7.4.2 Calculating ranks for the distribution
    - 7.4.4 The toxicity profile and the species sensitivity distribution
    - 7.4.5 Choosing the distribution model
    - 7.4.6 Addressing uncertainty in probabilistic risk assessment
    - 7.4.7 Other lines of evidence
  
- 8 HUMAN HEALTH RISK ASSESSMENT OF PESTICIDES
  - 8.1 TOXICITY TESTS USED FOR PESTICIDE RISK ASSESSMENT IN HUMANS
  - 8.2 RISK ASSESSMENT OF PESTICIDE RESIDUES IN FOODS
  - 8.3 RISK ASSESSMENT FOR OCCUPATIONAL EXPOSURE TO PESTICIDES
